

Setting up Application Environment

Create Send Grid Account

Date	29 October 2022
Team ID	PNT2022TMID16536
Project Name	Skill and job Recommender
Maximum Marks	

Step 1: Navigate to <https://sendgrid.com>

Step 2: Click on “Start for free” and register yourselves by entering required details and click on create account

Step 3: Further fill all required details in next page and click on get started as shown below

The screenshot shows the 'Tell Us About Yourself' form on the SendGrid website. The form is designed to collect user information to improve service. It includes fields for First Name, Last Name, Company Name, and Company Website. There are also dropdown menus for Country Code (set to USA) and Phone Number. A section titled 'What is your role?' offers radio button options for Developer, CEO, Marketer, and Other. Another section, 'How many emails do you send per month?', provides radio button options for various volume ranges: 0 to 100,000, 100,000 to 700,000, 700,000 to 1,500,000, 1,500,000 to 10,000,000, 10,000,000 to 50,000,000, 50,000,000 to 100,000,000, and 100,000,000+. A final question, 'How many employees work at your company?', is partially visible at the bottom. The Twilio logo is in the top left, and a 'Privacy - Terms' link is in the bottom right. The browser's address bar shows the URL 'signup.sendgrid.com/account_details?s2s=true'.

Step 4: That's it you have created your SendGrid account and got access to dashboard

Output: Send Grid account created successfully

The screenshot displays the SendGrid dashboard for a user named 'priya dharshini'. The left sidebar contains navigation links for Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, Settings, and Twilio SMS. The main content area features a 'Welcome, priya!' message with a sub-header 'To get up and running quickly, please follow the steps outlined below.' Below this is a large blue banner that reads 'Send your first emails with Twilio SendGrid'. Underneath the banner, a section titled 'Create a sender identity' provides instructions: 'Before sending email, you'll need to create a sender identity. There are two ways to do this, but we recommend creating a Single Sender to get set up quickly and test your email integration.' It includes a 'Create a Single Sender' button and a link to 'Authenticate a domain instead'. To the right, a text box explains that the sender identity is the 'from' email address and provides an example: 'Your Business -> jane.doe@your.business.com'. Below this, a visual representation of an email header shows the 'From' field populated with the business name and email address. At the bottom of the main content area, a section titled 'Send your first email' includes a lock icon and the instruction: 'Please create a sender identity before sending your first email.' The dashboard also shows a 'REPUTATION' bar at 100%.
